To Whom It May Concern

The Chief of the Patent Office certifies that **Wael Mohamed Nabil Lotfe**
Address : 43 GIZA ST.- GIZA - ARAB REPUBLIC OF EGYPT
has filed application No.946 on 24/09/2003 to obtain a patent for an invention titled :
LINED BALLOON MOUNTED STENT

This Document was given to him upon his request,

Dated 20/12/2003 Coupon No. 987578

COMPLIANCE WITH RULE 17.1(a) OR (b)

BEST AVAILABLE COPY

This ' Document ' is given to an applicant upon his request
This ' Document ' doesn't, by any means, indicate that a patent has been issued for the applicant

This is translation for application No. 0946\2003 filed on 07/12/2003

(4) The detailed description

(4/1) The previous art:

- 1- A surgery is a must to replace the damaged valve with a sound human, animal or steel valve.
- 2- The animal valve is fixed via a catheter.

(4/3) The new with the invention:

- 1- The interventional catheter realizes the same results of the surgery.
- 2- The valve can be treated before and after the surgery.
- 3- The interventional catheter avoids the problems and dangers of the surgery.

PATENT OFFICE

(4/4) The detailed description:

The valved balloon stent of this invention is inserted via the intervention catheter to carry out the functions of the valve inside the heart. The stent is inserted with its small size and then it is inflated to take the size of the blood vessel. The balloon which carries out the functions of the valve is dilated with convenient substance such as carbon dioxide or salt solution. In addition to the described balloon, the stent could be lined with a balloon to control the main opening diameter. To make it clear, this invention could be resemble to a ball and cage fixed on a dilatable stent wherein the stent has an opening at one side and on the other side a cage that has a inflatable ball inside it.
